*Any additional critical/key locations included in the scope of accreditation are appended to this listing.*

**Accreditation Standards:**

CAN-P-3G (ISO/IEC Guide 65:1996)  
CAN-P-1500M  
IAF GD 5:2006

**Certification Mark:**

**Product Certification System Type:**

The product certification system operated by this organization most closely resembles that described by ISO/IEC Guide 67, *Conformity assessment — Fundamentals of product certification*, System 3. The program includes the evaluation of samples requested by the certification body, determination of characteristics by testing or assessment, initial assessment of the production process or the quality system, as applicable, evaluation of the test and assessment reports, license, on-going surveillance by testing or inspection of samples from the factory as well as on-going surveillance of the production process.

**Subject Areas of Accreditation:**

The scope of accreditation for the above-mentioned legal entity limits the use of the certification mark shown, to products that meet standards classified by the following international classification coding:
