Date of Most Recent Reaccreditation:	2017-05-08
Accreditation Expiry Date:	2021-03-29

Additional Fixed Office Locations:

The inspection activities conducted by the above-mentioned legal entity at the following locations are also included in this scope of accreditation:

Location	Country	Address	City
A	Canada	6225 Kenway Drive Mississauga, Ontario L5T 2L3	Mississauga
B	Canada	1829 32nd Avenue Lachine QC H8T 3J1	Montreal

Operation Type of Inspection Body:

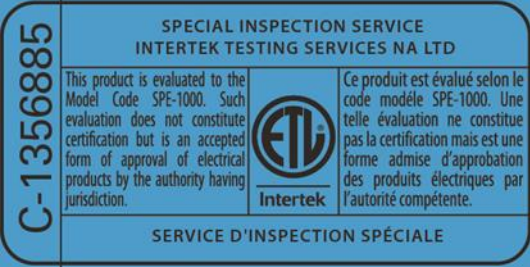

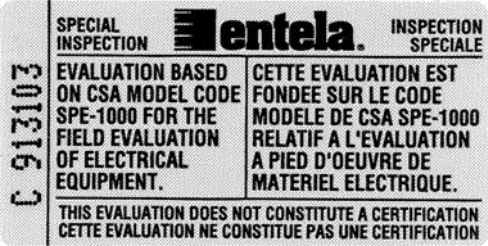

ISO/IEC 17020, Conformity assessment — Requirements for the operation of various types of bodies performing inspection, Annex A Independence requirements for inspection bodies, Type A most closely resembles the operation type operated by this organization. The inspection body shall be independent of the parties involved. The inspection body and its personnel shall not engage in any activities that may conflict with their independence of judgment and integrity in relation to their inspection activities. In particular, they shall not be engaged in the design, manufacture, supply, installation, purchase, ownership, use or maintenance of the items inspected. An inspection body shall not be a part of a legal entity that is engaged in design, manufacture, supply, installation, purchase, ownership, use or maintenance of the items inspected. The inspection body shall not be linked to a separate legal entity engaged in the design, manufacture, supply, installation, purchase, ownership, use or maintenance of the items inspected by the following: 1) common ownership, except where the owners have no ability to influence the outcome of an inspection; 2) common ownership appointees on the boards or equivalent of the organizations, except where these have functions that have no influence on the outcome of an inspection; 3) directly reporting to the same higher level of management, except where this cannot influence the outcome of an inspection; 4) contractual commitments, or other means that may have an ability to influence the outcome of an inspection.

Scope of Accreditation:

I: Electric Products Program

Base program:	SPE-1000 Field Evaluation/Special Inspection
Inspection Standards	CSA Model Code SPE-1000 Canadian Electrical Code
Inspection Label	 <p>The image shows a blue rectangular label for Intertek's Special Inspection Service. On the left side, the number 'CP-1411885' is printed vertically. The top text reads 'SPECIAL INSPECTION SERVICE / SERVICE D'INSPECTION SPÉCIALE' and 'INTERTEK TESTING SERVICES NA LTD'. The main body of the label contains two columns of text: English on the left and French on the right. Both columns state that the product is evaluated to the Model Code SPE-1000 and that this evaluation is an accepted form of approval, but it does not constitute certification. In the center, there is the Intertek logo (a stylized 'E' and 'I' in a circle) and the word 'Intertek' below it. At the bottom, it says 'PANEL ONLY / PANNEAU SEULEMENT'.</p>

	 <p>The label presented above is in accordance with CSA-SPE-1000 and is effective as of March 15th, 2015.</p>
	<p>Product inspected to CSA SPE-1000 between April 1st, 2010 and March 14th, 2015 was labeled in accordance with CSA-SPE-1000 as represented by the labels below.</p> 
	<p>Product inspected to CSA SPE-1000 between March 3rd, 2005 and March 31st, 2010 was labeled in accordance with CSA-SPE-1000 as represented by the labels below.</p>  
<p>Locations:</p>	<p>A,B,C</p>

<p>Scope of Accreditation</p>	<p>The performing of field evaluations/special inspections and the application of approval labels on electrical equipment and systems in accordance with all of the following:</p> <p>As identified in the scope of CSA SPE-1000 Model Code for the field evaluation/special inspection of electrical equipment, but excluding</p> <ul style="list-style-type: none"> a) wire and cable products; b) wiring devices; c) equipment for use in hazardous locations; d) medical electrical equipment and systems; e) components* that will require further evaluation as part of a complete assembly, such as switches, relays, and timers; f) equipment connected to line voltage in excess of 46 kV; g) manlifts, elevators, climb assists and similar systems (other than their associated control panels); and h) any equipment that is not permitted to be field evaluated as directed by an AHJ (such as air-cleaning equipment that intentionally produces ozone). <p>*Field evaluation/special inspection only applies to equipment that is capable of being connected to the supply in accordance with the Canadian Electrical Code, Part I.</p>
--------------------------------------	--
