Inspection Logo:

Product inspected prior to April 01, 2010 was labeled in accordance with CSA-SPE-1000-99 as represented by the labels below.

Scope of Accreditation:

The performing of field inspections and the application of approval labels on electrical equipment and systems in accordance with all of the following:

As identified in the scope of CSA SPE-1000 Model Code for the field evaluation of electrical equipment, but excluding:

- a) wire and cable products;
- b) wiring devices;
- c) equipment for use in hazardous locations;
- d) medical electrical equipment and systems;
- e) components* that will require further evaluation as part of a complete assembly, such as switches, relays, and timers;
- f) equipment connected to line voltage in excess of 46 kV;
- g) manlifts, elevators, climb assists and similar systems (other than their associated control panels); and
- h) any equipment that is not permitted to be field evaluated as directed by an AHJ (such as air-cleaning equipment that intentionally produces ozone).

*Special inspection/field evaluation only applies to equipment that is capable of being connected to the supply in accordance with the Canadian Electrical Code, Part I.
