## **CERTIFICATION BODY ACCREDITATION PROGRAM**

**Accredited Legal Entity:**

### **BUREAU DE NORMALISATION DU QUÉBEC**

Parc technologique du Québec métropolitain, 333, rue Franquet, Québec, Québec G1P 4C7 Canada

Telephone: (418) 652-2219

Fax: (418) 652-2292

Email: Kim.Cantin@bnq.qc.ca

*Any additional critical/key locations included in the scope of accreditation are appended to this listing.*

#### **Accreditation Standards:**

CAN-P-3G (ISO/IEC Guide 65:1996)

CAN-P-1500M

IAF GD 5:2006

PEFC Annex 6

SFI 2010-2014 Standard Section 3

SFI 2010-2014 Standard Section 4

CanadaGAP Food Safety Manuals

#### **Certification Mark:**

#### **Product Certification System Type:**

The product certification system operated by this organization most closely resembles that described by ISO/IEC Guide 67, *Conformity assessment — Fundamentals of product certification*, System 5. It includes the evaluation of samples requested by the certification body, determination of characteristics by testing or assessment, initial assessment of the production process or the quality system, as applicable, evaluation of the test and assessment reports, license, on-going surveillance by testing or inspection of samples from the factory or the open market, or both depending on the product type, as well as on-going surveillance of the production process or quality system or both.

**Canada**

**Subject Areas of Accreditation:**

The scope of accreditation for the above-mentioned legal entity limits the use of the certification mark shown, to products that meet standards classified by the following international classification coding:

ICS No.	Title	Purpose
03.080.30	Services for customers (hotels, vacation centers and camping establishments)	Performance
59.080.70	Geotextiles	Performance
97.200.30	Camping equipment and camp-sites	Performance
13.020.99	Other standards related to environmental protection (ecotourism)	Performance
67.120.10	Meat and meat products (pigs, grain-fed calves, veal calves, and Charlevoix lamb)	Tracability
67.180.10	Sugar and sugar products (Honey 100% Québec)	Traceability
91.100.30	Concrete and concrete products	Performance

**Certification Mark:****Product Certification System Type:**

The product certification system operated by this organization most closely resembles that described by ISO/IEC Guide 67, *Conformity assessment — Fundamentals of product certification*, System 6. This program addresses especially certification of processes and services. It includes the determination of characteristics by assessment of processes or services, initial assessment of the quality system, as applicable, evaluation, on-going surveillance by audits of the quality as well as on-going surveillance of the processes or services.

**Subject Areas of Accreditation:**

The scope of accreditation for the above-mentioned legal entity limits the use of the certification mark shown, to products that meet standards classified by the following international classification coding:

ICS No.	Title	Purpose
03.080.30	Services for customers (hotels, vacation centers and camping establishments)	Performance
03.080.99	Other services (outfitters, nature and adventure tours, special events and travel agencies)	Performance
03.220.20	Road transport (bus services)	Performance
03.220.40	Transport by water (cruises and ferry transport)	Performance

ICS No.	Title	Purpose
67.020	Processes in the food industry (transformed food stuffs with optimal control of allergens)	Performance and Safety
93.020	Earthworks. Excavations. Foundation construction. Underground works	Performance
93.025	External water conveyance systems	Performance

**Certification Mark:**

**Product Certification System Type:**

The product certification system operated by this organization most closely resembles that described by ISO/IEC Guide 67, *Conformity assessment — Fundamentals of product certification*, System 5. It includes the evaluation of samples requested by the certification body, determination of characteristics by testing or assessment, initial assessment of the production process or the quality system, as applicable, evaluation of the test and assessment reports, license, on-going surveillance by testing or inspection of samples from the factory or the open market, or both depending on the product type, as well as on-going surveillance of the production process or quality system or both.

**Subject Areas of Accreditation:**

The scope of accreditation for the above-mentioned legal entity limits the use of the certification mark shown, to products that meet standards classified by the following international classification coding:

ICS No.	Title	Purpose
11.140	Hospital equipment	Performance
13.060.20	Drinking water	Performance and safety
13.060.30	Sewage water	Performance and Safety
13.060.50	Examination of water for chemical substances	Safety
13.340.10	Protective clothing	Performance and Safety
13.340.20	Head protective equipment	Performance and Safety
13.340.50	Leg and foot protection	Performance and Safety
13.340.99	Other protective equipment (neck protectors)	Performance and Safety
23.040.10	Iron and steel pipes (corrugated galvanized steel pipes)	Performance
23.040.15	Non-ferrous metal pipes	Performance
23.040.20	Plastic pipes	Performance
23.040.99	Other pipeline components (concrete pipe)	Performance
23.060	Valves	Performance
43.160	Special purpose vehicles (ambulances)	Performance and Safety

ICS No.	Title	Purpose
59.080.99	Other products of the textile industry (Québec flag)	Performance and Safety
65.080	Fertilizers	Performance
67.180.10	Sugar and sugar products (maple syrup)	Performance
67.250	Materials and articles in contact with foodstuffs	Performance and Safety
77.140.80	Iron and steel castings	Performance
79.060	Wood-based panels	Performance
83.140.99	Other rubber and plastics products (traffic cones)	Safety
93.030	External sewage systems	Performance and Safety
93.080.99	Other standards related to road engineering (dust suppressants)	Safety
97.140	Furniture (chalkboard writing surface)	Performance

## CHAIN OF CUSTODY OF FOREST-BASED PRODUCTS

### Certification Mark:

### Product Certification System Type:

The product certification system operated by this organization most closely resembles that described by ISO/IEC Guide 67, *Conformity assessment — Fundamentals of product certification*, System 6. This program addresses especially certification of processes and services. It includes the determination of characteristics by assessment of processes or services, initial assessment of the quality system, as applicable, evaluation, on-going surveillance by audits of the quality as well as on-going surveillance of the processes or services.

### Subject Areas of Accreditation:

The scope of accreditation for the above-mentioned legal entity pertains to the chain of custody of forest-based products to *PEFC ST 2002-2010* and/or *SFI 2010-2014 Section 3 Chain of Custody Standard*. The scope also includes on-product labeling in accordance with *SFI 2010-2014 Standard Section 4*.

Chain of custody refers to the custodianship of wood products through the stages of harvesting, transporting, handling, or processing from a forest to the final consumer. Products that fall under this scope are represented by the following international classification codes.

ICS No.	Title	Purpose
79.020	Wood technology processes	Chain of Custody

Canada

ICS No.	Title	Purpose
79.040	Wood, sawlogs and sawn timber	Chain of Custody; product labeling
79.060	Wood-based panels	Chain of Custody; product labeling
79.080	Semi-manufactures of timber	Chain of Custody; product labeling
85.040	Pulps	Chain of Custody; product labeling
85.060	Paper and board	Chain of Custody; product labeling
85.080	Paper products	Chain of Custody; product labeling
97.140	Furniture (Wood-based)	Chain of Custody; product labeling

## FOOD SAFETY PROGRAM CANADAGAP

### Certification Mark:

A certified company may be recognized by the CanadaGAP<sup>TM</sup> logo placed on the facility that is certified or on company literature. This logo is a certification mark owned by CanAgPlus and may be used under license by a Certification Body. For more information on the CanadaGAP<sup>TM</sup> Program consult: <http://www.canadagap.ca/welcome/>

### Product Certification System Type:

The product certification system operated by this organization most closely resembles that described by ISO/IEC Guide 67, *Conformity assessment — Fundamentals of product certification*, System 6. This program addresses especially certification of processes and services. It includes the determination of characteristics by assessment of processes or services, initial assessment of the quality system, as applicable, evaluation, on-going surveillance by audits of the quality as well as on-going surveillance of the processes or services.

### Subject Areas of Accreditation:

The scope of accreditation for the above-mentioned legal entity pertains to the CanadaGAP food safety program. Products that fall under this scope are represented by the below international classification codes. The scope of accreditation of the certification program limits the use of the certification mark and meets the requirements listed under the following classification codes standards:

ICS No.	Title	Purpose
67.080.10	Fruits and derived products	Food Safety
67.080.20	Vegetables and derived products	Food Safety

### Other Critical/Key Locations

The certification activities conducted by the above-mentioned legal entity at the following location are also included in this scope of accreditation:

Country	Address	Location
Canada	1201, Blvd Crémazie E Montreal, QC H2M 0A6	Montreal
