Initial Accreditation:	2007-05-25
Most Recent Reaccreditation:	2020-05-28
Accreditation Valid to:	2024-05-25

Additional Fixed Office Locations:

Refer to the legal entity location identified at the top of this listing. There are no additional locations included in this scope of accreditation:

Product Certification Scheme:

ISO/IEC 17067, Conformity assessment - Fundamentals of product certification and guidelines for product certification schemes, *scheme type 6* most closely resembles the product certification scheme operated by this organization. This scheme is mainly applicable to certification of services and processes. Although services are considered as being generally intangible, the determination activities are not limited to the evaluation of intangible elements (e.g., effectiveness of an organization’s procedures, delays and responsiveness of the management). In some situations, the tangible elements of a service can support the evidence of conformity indicated by the assessment of processes, resources and controls involved. For example, inspection of the cleanliness of vehicles for the quality of public transportation. As far as processes are concerned, the situation is very similar. For example, the determination activities for welding processes can include testing and inspection of samples of the resultant welds, if applicable. For both services and processes, the surveillance part of this scheme should include periodic audits of the management system and periodic assessment of the service or process.

Scope of Accreditation:

The scope of accreditation for the above-mentioned legal entity limits the use of the certification mark shown, to products that meet standards classified by the following international classification coding:

Subject Areas of Accreditation:

The scope of accreditation for the above-mentioned legal entity pertains to the chain of custody of forest-based products to PEFC “Chain of Custody of Forest Based Products – Requirements” Standard [PEFC ST 2002:-2013] and/or Section 4 SFI 2015-2019 Chain-of-Custody Standard. The scope also includes on-product labeling in accordance with Section 3 – Appendix 1. SFI 2015-2019 Rules for Use of the SFI Certified Sourcing Label.

Chain of custody refers to the custodianship of wood products through the stages of harvesting, transporting, handling, or processing from a forest to the final consumer. Products that fall under this scope are represented by the following international classification codes.

ICS No.	Title	Purpose
79.020	Wood technology processes	Chain of Custody; on-product labeling
79.040	Wood, sawlogs and sawn timber	Chain of Custody; on-product labeling
79.060	Wood-based panels	Chain of Custody; on-product labeling
79.080	Semi-manufactures of timber	Chain of Custody; on-product labeling
85.040	Pulps	Chain of Custody; on-product labeling

ICS No.	Title	Purpose
85.060	Paper and board	Chain of Custody; on-product labeling
85.080	Paper products	Chain of Custody; on-product labeling

This document forms part of the Certificate of Accreditation issued by the Standards Council of Canada (SCC) to PricewaterhouseCoopers LLP. The original version is available in the Directory of Accredited Product, Process and Service Certification Bodies on the SCC website at www.scc.ca.
