Enviro-Access Inc.
85 rue Bevedere Nord, Bureau 150
Sherbrooke, PQ
J1H 4A7

This note is to confirm that the Standards Council of Canada (SCC) Greenhouse Gas Accreditation Program (GHGAP) accredited client Enviro-access inc. has successfully been assessed by SCC during their Head Office audit for Technical Assessor Competencies for ALL eight General Technical Scope categories, (see list below).

However, until Enviro-access inc has successfully completed the required witness audits for each of the General Technical Scope Categories for which they have applied, SCC has granted accreditation for only the technical scope category which currently appears on Enviro-access inc's .scope of accreditation posted on the SCC website at www.scc.ca. Any additional technical scope categories will be added to their scope of accreditation pending the successful completion of the required GHGAP witness audit activities.

SCC GHGAP's Eight General Technical Scope Categories:

1. Industry,
2. Land use and forestry,
3. Livestock,
4. Geological Sequestration,
5. Renewable Energy,
6. Waste handling & disposal,
7. Logistics & transportation,
8. Service

Please contact the under signed if you have any further questions or concerns.

William G Thoms
